Hi Brian,

I just got off the phone with Leslie regarding the February 11 letter from RTKC proposing a new monitoring well at Barneys Canyon. It sounds like you will be receiving a letter from DOGM in a few days with their authorization. Since the letter was addressed to DOGM, DWQ will not be submitting a separate response. This email serves as our approval to proceed with the monitoring well as presented. We will eventually modify the Barneys Permit to include the new well, but that can be done at a later date after the well has been installed. Let me know if you need anything else from us.

Thank you.
